R
C
C (circle) to D (triangle)
Generated recall (%) | all 1183 anomalies
Generated FPR (%) | all 392 normal images
D
Cpair (circle) to R (triangle)
Generated recall (%) | all 1183 anomalies
Generated FPR (%) | all 392 normal images
Basic generation budget: 32 tokens. AUROC uses Yes-minus-No logits; recall/FPR use actual generated answers.
VisA-selected checkpoints; three training seeds on the same images. Native Qwen external: not evaluated; foundation pretraining exposure unknown.
